

Precision Copper Foil Thickness Tester

CU 2000

The CU-2000 is the only hand held copper foil thickness tester specifically engineered to accurately test differential copper foil on thin core or rigid laminates.

It accurately measures the range of (1/8 ounce) to 4 oz. thickness. Hand held, battery operated, it measures in less than 1 second without any damage to the copper surface. It is used internationally to check incoming materials to eliminate costly scrap and rework. Prior to shearing, stamping, and drilling, it will ensure proper construction before costly processing. It is very simple and friendly to use.

Features:

- Use on flexibles, rigids, thin cores or bare copper face.
- Press on copper surface and read results with lighted display.
- Supplied in Padded protective case, battery compartment allows easy 9v battery replacement.
- Replacement Probes optional

Specifications:

- Size: 4"(H) 2 1/2 (W) 1.0 (D)
- Weight: 4.2 ounces
- Operation Temperature: 50°F-100°F
- The ranges are 1/8, 1/4, 3/8, 1/2, 1, 2, 3, and 4oz.
